

Ayan Gupta

Greater Noida, India | imluckyayan@gmail.com | +91 87007 34959 | xkaper.dev | github.com/xkaper001

Technical Skills

Mobile Development: Flutter, Dart, Android Studio, iOS Development, Cross-Platform Apps, State Management (Provider, Bloc, Riverpod)

Backend & Databases: Node.js, Express.js, Firebase, Appwrite, MongoDB, MySQL, REST APIs

Programming Languages: Dart, JavaScript, TypeScript, Python, C++, Go, SQL

DevOps & Tools: Git, CI/CD Pipelines, Docker, AWS, Google Cloud Platform, Linux, Fastlane

Work Experience

Software Engineer, [Classplus](#) July 2025 – Feb 2026

- Built and deployed a production-ready Flutter application for [Polaris School of Technology](#), implementing complex features including real-time QR-based attendance tracking, course content management, and offline-first architecture—successfully published on both Google Play Store and Apple App Store.
- Architected scalable Flutter codebase using clean architecture patterns and state management (Provider/Bloc), reducing code complexity and improving team productivity by 25%.
- Streamlined release workflows by integrating CI/CD pipelines with Fastlane and crash analytics (Firebase Crashlytics), reducing app crashes by 40% and enabling weekly release cycles.

Founding Mobile Engineer, [ReviewDale](#) Feb 2025 – Nov 2025

- Optimized Flutter app performance by 30% through widget tree optimization, lazy loading, and efficient state management, significantly improving user experience across Android and iOS platforms.
- Automated build, testing, and deployment pipeline using GitHub Actions and Fastlane, reducing release time by 60% and enabling faster feature rollouts.
- Increased user base by 10% through implementing smooth animations, responsive UI, and intuitive user flows in Flutter.

Projects

DocPilot – AI-Powered Lifestyle Assistant [View on GitHub](#)

- Built a cross-platform Flutter app for LG WebOS TVs featuring speech-based recipe suggestions, trivia games, and smart recommendations powered by Appwrite backend.
- Implemented custom platform channels for WebOS integration and optimized rendering for TV displays using Flutter's responsive layout system.

– Flutter, Dart, Appwrite, JavaScript, Docker, Platform Channels

Neq AI – Voice-Enabled Smart TV App [View Demo on YouTube](#)

- Developed a Flutter application with accurate voice recognition and real-time user interaction for LG WebOS platform, achieving high engagement rates.
- Integrated speech-to-text capabilities and custom animations to create an intuitive conversational UI experience.

– Flutter, Dart, JavaScript, Docker, Speech Recognition

Cryptic Crusade – Real-Time Gaming App [View on GitHub](#)

- Designed an immersive cryptic hunt Flutter app with 200+ active players, featuring QR-based level progression, decryption challenges, and Firebase-backed real-time leaderboards.
- Implemented efficient state management and offline-first architecture to ensure smooth gameplay even with intermittent connectivity.

– Flutter, Dart, Firebase, AWS, CI/CD, Bloc State Management

Resonate | AOSSIE – Social Voice Platform

[View on GitHub](#)

- Open Source social voice platform similar to Clubhouse. Merged 5+ quality PRs contributing to the project's development.
 - Open Source, LiveKit, Flutter, Dart, Appwrite

Relio – Resume to Portfolio Tool

[View on ProductHunt](#)

- Simple tool that transforms resumes (PDF or DOCX) into stunning, ready-to-share portfolio websites in seconds.
 - Open Source, Web Development, Automation

Monumento | AOSSIE – AR Landmark Explorer

[View on GitHub](#)

- AR application to share, connect, and explore landmarks. Merged 10+ quality PRs making meaningful contributions.
 - Open Source, AR, Mobile Development, Flutter, Dart, Appwrite

Unto – AI Travel Planner

[View on GitHub](#)

- Intelligent travel planning application that leverages AI to automatically search and recommend flights and accommodations for travel needs.
 - Open Source, AI, Next.JS, Cerebras,

Volunteering & Leadership

Open-Source Contributor, Hacktoberfest 2024, 2025

[Oct 2024, 2025](#)

- Successfully completed Hacktoberfest by contributing to 10+ repositories by submitting high-quality PRs focused on improving web, mobile, and back-end applications.

Open-Source Contributions

[View Contributions \(GitHub\)](#)

- A regular contributor to open source organizations including AOSSIE-Org, foss42, Palisadoes Foundation. Also took part in Hacktoberfest'24, GSSoC (GirlScript Summer of Code) as a Contributor and GSSoC' Extended as a mentor.

Mentor, GSSoC Extended 2024

[Sep 2024](#)

- Mentored 30+ contributors across multiple open source projects by guiding participants, reviewing 50+ PRs, and providing structured feedback to improve their development skills.

Contributor, GSSoC 2024 (GirlScript Summer of Code)

[Aug 2024](#)

- Contributed to 5+ projects with 20+ commits merged by collaborating on web and app development, ensuring code efficiency and maintainability.

Education

B.Tech in Computer Science & Engineering

[2023 – 2027 \(Expected\)](#)

VIT Bhopal University | CGPA: 8.66

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Mobile Application Development, Database Management Systems, Software Engineering

Certificates

[Certified Associate Penetration Tester](#), Hackviser

[Feb 2026](#)

[Pre Security](#), TryHackMe

[Nov 2025](#)

[Accessibility Fundamentals](#), Accesstia

[Sep 2025](#)

[AWS Technical Essentials](#), AWS

[Sep 2025](#)

[AWS Certified Cloud Practitioner Question Set](#), AWS

[Sep 2025](#)

[The Bits and Bytes of Computer Networking](#), Google

[Dec 2024](#)
